

ISLAND LIGHTHOUSES, WINERY & BREWERY LUNCH TOUR

Prince Edward Island Tour for North American European Union Delegates

Date: Friday, September 15th, 2023

Pick up at Delta Hotel – brought to you by: Experience PEI

Lunch included with purchase price. After you register, you will receive in early Summer a separate email where you will be asked to choose your lunch based on a series of options

As an Island, lighthouses have been critical to the safety of mariners making their way up the Atlantic coast. These beacons dot the shoreline, and this tour will take you on a guided scenic drive to two of the oldest lighthouses on Prince Edward Island.

Point Prim lighthouse was the first lighthouse built on the Island. Constructed in 1845, it is also the only brick lighthouse. The Wood Islands lighthouse started guiding ships in 1876, making it the second oldest lighthouse with an attached dwelling for the keeper and his family.

Prince Edward Island is gradually becoming known for its wine production and you'll stop at Rossignol Winery, the Island's oldest vineyard for a tour and sampling of their award-winning product.

Then you'll visit one of the Island's newest craft breweries and recently named Atlantic Canada's Best Brewery. Lunch will be at Bogside Brewery & Restaurant in Montague where you'll have your choice of beers and enjoy a delicious lunch before heading back to Charlottetown.

10:00 Depart Delta
